

RED ROSE CAREER

It's getting dark you tie your tie

Watch people hurrying by

You sway your hat and say hello

Welcome to my show

Discounts here tonight tonight

Yeah you've heard it right

If you smile it's two for one

And a white one for your mum

Tell me where you're coming from and you
have won

An extra color help yourself, before they're
gone

Hand in hand they're walking by

You see it's just a lie

You sway your hat and say hello

Lady let him show

What he really feels for you, a love so pure?

He's waiting seems to be unsure, then he's
gone – "Sorry, you're not the only one"

Red Rose Career, smell talk an hear

Stories of love then you disappear

You are the only one coloring hearts in here

Blue Rose, Black Rose, your soul is dark

Grey Rose, Green Rose, you brighten up

White Rose, Red Rose, you're so in love

Roses see, how you feel

Close your eyes and hear some rhymes

It's free you keep your dimes

You sway your hat and say hello

Welcome to my show

The colors turn from dark to bright

Book your red rose flight

We'll leave the world for a little while

And you'll be doing fine

The smell of freedom feels so good, it's all for
you

Buy a rose or maybe two, you won't be fooled

Red Rose Career...
