

Sing for Life

lyrics by roli

music by goodron

Sitting here all people passing by
Just an ordinary boy
What if all the girls would say hello
Yesterday I've seen your show

I'm the man you wanna spend your life
I'm the man you want tonight
May your fantasies be coming true
You're not alone but you're so cool

Sing for life the light is on
Now the time has come they'll shine on you
Millions home voting for you
Sing for life the lights shine on you

Here's your song and there you'll play some shows
Music Stars will be on number one
May your fantasies be coming true
Now they tell you what to do

Sing for life the light is on
Now the time has come they'll shine on you
Millions home voting for you
Sing for life the lights shine on you

The light will shine on you, always shine on you
The light will shine on you, always shine on you
Now they're telling you all you have to do
May your fantasies still be coming true

Sing for life the light is on
Now the time has come they'll shine on you
Millions home voting for you
Sing for life the lights shine on you

Sitting here again and now
The light is out and don't shine on you
What if all the girls would say
Music Star? I don't remember you
