

Who cares

lyrics by roli

music by goodron

Silent Night
Tired to fight

I hear you, voices in my head
They all tell me

Holy night
I'm weird inside

I hear you, voices in my head
They all tell me

Hey hey sail away
Leave the world behind for endless days
Hey hey feel the air
You gonna see who cares

Lonely Night
All night tired

I hear you, voices in my head
They all tell me

Hey hey sail away
Leave the world behind for endless days
Hey hey feel the air
You gonna see who cares
