

## **You**

lyrics by roli

music by goodron

Another night alone  
You've said you need some time on your own  
Another word of faith  
Could change my world, could change my day

I'm coming home  
Is there still a place for me in your heart

You don't know who you are  
You are my lovin' star  
We'll leave the world behind tonight  
And make it alright

Five years ago I thought  
We'll fight every storm, never leavin' our boat  
Five years of love and faith  
They changed my world, they changed my day

I'm coming home  
Is there still a place for me in your heart

You don't know who you are  
You are my lovin' star  
We'll leave the world behind tonight  
And make it alright
